Brinks Services Gets \$700K Contract to Fix Plumbing

Brinks Services Inc. of Kearny Mesa has won a \$700,000 contract to fit 184 condominium units at Cardiff Cove with a CuraFlo epoxy to coat all the copper pipes in the 46-building, 17-acre hillside complex.

To avoid having to make a special assessment to pay for the epoxy coating, the Cardiff Cove Homeowners Association has set up a six-year plan with the condo owners. The association's president, Richard Bosch, says that leaks have caused severe damage to some of the homes.
